WE BELIEVE
IN DESIGN
TO GROW
SUSTAINABLY

WHAT WE DO

Our furniture can be found in hotels, eateries, education centres and F&B establishments in over 100 countries. Wide and varied though our clientele is, we have the flexibility to also cater to businesses with smaller orders, with no compromise in quality and attention to detail.

OUR CAPABILITIES

To ensure consistently high standards of quality, we are extremely particular about whom we choose to supply us with the raw materials for our products. All materials are carefully examined at source for quality before being shipped to our factories. A dedicated team also continually sources for the best materials at the best prices so that we can reap economies of scale. The savings in cost are passed down to our customers to make our furniture highly affordable.

BETTER DESIGN
BETTER VALUE
BETTER WORLD

OUR BRAND PROMISE

Promises are meant to be kept, so we don't make ours lightly.

BETTER DESIGN

Expect higher creativity and better designed systems.

Combining style and performance, our versatile and timeless Original Designs cater to various market segments. Our 'better design' mindset is applied to all fields of endeavour to give you ever better end-to-end service.

BETTER VALUE

Expect to have peace of mind and convenience. We provide smart and total furniture solutions, prompt responses, and reliable coordinated on-time delivery.

Expect exclusivity and reasonable prices. Our Original Designs are created by award-winning international designers, and cost savings from our LEAN factories are passed on to you.

BETTER WORLD

Expect to engage with a company that has a conscience, one that cares for the environment and for the total wellbeing of its people.

We want to help make our world a cleaner, safer, more sustainable home. Partner with us if your business shares a similar vision for greener products and happy employees.

CHOOSE SUSTAINABILITY

To ensure a brighter future for the world and generations to come, we have begun taking sustainable steps in order to help save our planet from pollution and curb this growing epidemic. By partnering ourselves with a fully integrated recycling company in Malaysia, Plashaus, we have succeeded in manufacturing our award-winning Louvre and 120 chairs using sustainable Ocean Plastic (OP), with more products in the works.

OP is made of recycled ocean-bound plastics that have been ethically gathered from coastlines around Malaysia. Both of our companies worked closely with each other for months, prototyping multiple iterations to perfect the suitable material pellet formula which was then used to fabricate strong, sturdy and sustainable chairs fit for commercial use.

By giving our customers this sustainable option, we would like to invite you to join us on our journey towards sustainability. Make the change with us for a greener, healthier Mother Earth.

Ovni

This chair is an exercise in minimalism. Constructed of laminated plywood on a metal frame, the Ovni Chair is inspired by a simple geometric shape – the oval. The oval backrest is mirrored in the oval seat, both delicately curved to offer exceptional comfort.

Achilla

Think of a tall, svelte lady in a formfitting dress and that's the Achilla Chair. The slender but sturdy frame holds a plywood shell that starts from a high backrest and fans out into the seat in one smooth, sensual sweep. Alluringly slim with a tucked-in waist where the backrest meets the seat, this stackable chair oozes an appeal that sets hearts racing. Available in stainless steel and mild steel.

Zeat

Out of the rich Scandinavian design traditions comes the Zeat Chair. Its charm lies in its utter simplicity. Zeat is minimalist in design, but still sports small details and refined curves that give the chair a distinct character. Made of mild steel, its lightness is one of its key strengths. Another is that there are different versions of the Zeat Arm Chair to cater to different moods and styles, especially in the F&B and hospitality fields. Both stackable and non-stackable versions of Zeat are available.

Float

As its name suggests, the Float inventively uses a slender steel frame to give off the illusion that the seat and backrest are freely 'floating'. By delicately weaving this minimalistic look with a traditional Scandinavian design, the Float achieves its goal of being an all-purpose contract chair that will give any setting a coherent look.

Bobby

There's a certain kind of attraction in simplicity, and the Bobby brings it out to the fullest. Made from a single piece of plywood, the rounded shape of the backrest gives this chair a nice and trendy concept, always a classic design. The sturdy steel frame also makes it durable and absolutely stackable. Always by your side, the Bobby can be your seating companion for any occasion, whether casual or formal depending on its colour and finish.

Basket

Since time immemorial, handmade hemp baskets have met human needs in countless ways: from storing food to cradling babies to trapping fish. Their rounded shapes are the inspiration for the very adaptable Basket Chair of contemporary design. Made of stainless steel and flat wicker, this comfortable outdoor chair stands out for its comfort, attractiveness and easy fit into almost any kind of environment. Now also available as a barstool.

Rope

Enjoy neoclassical artistry in the Rope. The collection was fashioned to be a clear evocation of the Art Nouveau style with its opulent volumes and generous proportions, with these luxurious details being bolstered by a sturdy steel structure. This blending of art and functionality has given birth to an honest, comfortable and versatile selection of furniture that is able to fulfil even the most demanding expectations.

Bebo

Bebo was conceived from the perceptive intuition of trends to come. The use of a moulded foam seat for superb comfort is an essential feature. Bebo is an expression of rounded, sensual and feministic flair that evokes the feeling of dynamism. Bebo takes its inspiration from the designs of the fifties and sixties, eras that are slowly making a trendy comeback.

Nordic

This jewel of a chair is a high tribute to the wood from which it is formed. All the characteristics for which wood is loved are included in the Nordic arm chair: wood's natural beauty, its wild look and kind strength, and its soft touch and soft embrace. Comfort is already a given. Made of solid oak or beech. Nordic also has an upholstered seat.

Tribute

Skilfully crafted, this simple looking chair is our tribute to Northern European design maestros. The creativity and ingenuity of these maestros are evident in Scandinavian furniture which can be found in all corners of the world. Exuding the same Scandinavian flavour and spirit loved by many designers, the Tribute chair is an excellent contemporary addition to any room.

Birdie

There's something playful about the Birdie chair. Ingeniously combining the traditional concept of a single rounded backrest with contemporary double-single legs, Birdie brings to mind a charming little bird confidently balanced on a branch. The veneered plywood of the backrest gives this delightful chair unsurpassed comfort. See it in beech or oak, with upholstered or veneered plywood seat.

Tucana

Never again feel you have to decide between the beauty and warmth of wood and the sensual softness of fabric. Enjoy both in the Tucana Chair. The front-facing backrest and seat are attractively upholstered while the back and legs of the chair show off the charm of ash or oak wood. Little details matter too: a small hole in the wooden backrest makes for easier handling of the chair.

Riva

The Riva's minimalist design is complemented by curves in all the right places. Simple and warm in nature, the Riva is our take on a classic armchair. Full of Northern European flavour and masterfully crafted out of solid wood, the durable Riva is a reflection of the level of care and thought put in by our designers. It's simple and timeless charms make it a pretty sight, but more than that, the Riva offers remarkable comfort.

Grado

A popular chair of the 1980s finds modern expression in the Grado Chair. Light and comfortable, this reinterpreted retro chair is also charmingly uncomplicated in design, except for two signature indents at the base of the backrest which single this chair out from the others. The backrest flows seamlessly into the seat in a single smooth sweep, accentuating Grado's elegance. The Chair version is stackable up to five units.

Louvre

Inspired by the American Midwest style and Shaker craftsmanship, the Louvre chair is a lightweight chair with an open backrest. It reinterprets the design of traditional wooden chairs and utilises the quality of modern plastic injection moulding technology. It is a no-nonsense design that is enjoyable and familiar to the user, and at the same time, modern and fun. The Louvre Chair is stackable and can be used indoors and outdoors.

Matera

If you had to choose just one chair for both indoor and outdoor areas, the Matera chair would be a great choice. Made of a metal frame and LLDPE, the Matera is water-resistant, so using it for al fresco dining poses no problems.

It also saves storage space as it's stackable, and the simplicity of its design makes the chair an easy fit anywhere. To have a different feel for indoor and outdoor spaces, just choose a different colour to distinguish between the two sets of chairs.

Rhyme

Paying homage to the simple and attractive architectural lines of master designer Le Corbusier, the Rhyme is a structurally balanced design that is full of sense and presence. However, with an emphasis on comfort, the Rhyme adds a twist by turning the straight and hard lines of Le Corbusier into softer and kinder volumes. The result is a fantastic piece with elegant lines, the luxury of noble materials, and the allure of trendy modern furniture.

Ebony

Minimalistic and elegant, the Ebony features a simple thin table top that is paired with subtle, yet beautifully detailed legs. The inspiration for this design is taken from the idea of wrapping paper around things. The shape of the folded metal legs creates stability and strength, and the legs are placed at the far end of each corner to make as much space as possible for chairs. The Ebony is available in various sizes, materials and colours, so you can mix and match to best suit your preferences.

Quad

Multi-purpose and versatile, the Quad was designed to easily adapt to any size and function. The table legs were meticulously studied in detail to give it the best strength and stability with the use of less materials. The Quad comes in varying sizes depending on the length of the crossbars and can be paired with any kind of table top, making the Quad the most universal table in our collection.

Victoria

Like a multi-talented performer, the customisable Victoria table can serve multiple purposes since the choice of table height and size is wholly up to you. Opt for a rectangular tabletop as a dining table, or a square one for a lamp table or a console table. The rounded corners also make this table a safer option in home and hospitality environments where the presence of young children is a consideration. Tabletop is available as wood veneer or HPL.

Pool

A light and elegant table collection, the Pool is a beautiful reminisce of the designs from the late 19th century. Slim, sober and well-proportioned, it employs the delicate class of wood and brass cappings to effectively pair itself with almost any chair and environment. The Pool is available in varying shapes and sizes for different occasions, so just choose your preferred option to satisfy your needs and the Pool will always be by your side.

Cut

At first glance, the Cut seems a simple design, but closer inspection reveals a more complicated exercise of abstraction. Starting out with the basic profile of a table, two very different leg and table top proportions were then introduced to interrupt the balance of the design. Adding in a deep cut to each table leg, this changes the look of the Cut when viewed from different angles, giving the silhouette an air of luxury and creativity around it.

Knots

Drawing inspiration from the age-old Bauhaus school, the Knots is an elegantly simple design that charms you with its geometrical volumes. The table utilises prismatic “boxes” that act as the knots of the structure, as well as an ingenious assembly system, to hide any screws from sight. This gives the knots a clear chameleonic aspect, whether the decadent luxury of its brass version or the modern industrial look of its matt black version. Many kinds of table tops can be paired with the Knots, but the transparent glass top which leaves all the beautiful steel work and luxurious marble uncovered is undoubtedly our favourite.

Daun

The design of this quaint table top was inspired by the shape of a leaf. Hence, the name Daun, meaning leaf in the Malay language. Small and easily manoeuvrable, the Daun is perfect to be paired with sofas in public areas or workspaces. You can even combine two Dauns together to give yourself a conveniently bigger table space. When not in use or the need for more space arises, the Daun can be neatly kept by pushing it into the sofa.

Kumi

Taking the rough industrial look of punched steel sheets and turning it into a delicate and attractive design, the Kumi is a piece of outdoor furniture that adds a touch of refinement to any space. Baring a simple but strong structure that is made of aluminium, the Kumi can be paired with different outdoor table top options to suit your fancy.

Otto

The novel use of a punched aluminium sheet as the stable frame of the Otto's open shelf singles out this table as one that bucks traditional trends. The frame supports a shelf of either webbing or textylene (Batyline). Combined with a choice of compact, veneered, high-pressure laminated or even a glass top, the Otto coffee table is all set to be used both indoors and outdoors.
